### Dear Member

The Revised B-BBEE Codes require (small and large) businesses to collaborate in order to meaningfully integrate SMMEs into the supply chain of large / corporate businesses. Enterprise & Supplier Development (ESD) is largest contributor to the revised B-BBEE Codes of Good Practice announced in the revised B-BBEE Codes of Good Practice that came into effect on 01 May 2015. Under the new ESD framework large enterprises are incentivized to invest in enterprise and supplier development in order to grow and develop the local SMME's.

The Durban Chamber is collaborating with Deloitte to offer a multi-polar solution that offers large businesses scalable service offering that enables them to target and access screened SMME's as potential suppliers while at the same time offering the SMME's the opportunity to get access to skills and/or capacity development and funding. As part of the service offering, large businesses will have access to supply chain analysis undertaken by Deloitte to identify supplier development opportunities and cost optimization opportunities through spend analytics and benchmarking.
