

See the Light

The Greenest Metal

THINK FUTURE
THINK ALUMINIUM
THINK HULAMIN

Light weight | energy saving ease of use | strength |
durability | corrosion resistance | maintenance free.

The durability of building materials is affected by many factors but Painted Aluminium Roofing from Hulamin is resistant to atmospheric and chemical attacks, offering long life.

Once aluminium products have served their useful life, recycling requires only 5% of the energy required to produce the original metal while retaining all the properties of the original metal.

HULAMIN
