Graduate School of Business

Short Course

Equities Investment Management Programme

This five day course provides an introduction to equity markets, share trading and knowledge of the Johannesburg Securities Exchange

The course is aimed at financial practitioners, who are at junior, supervisory and management levels, who want to be equipped with share investment and hedge fund management knowledge.

At the end of this course, participants will be able to:

- Apply concepts and principles relevant to the practical aspects of corporate governance and accountability
- Complete and submit reports within the financial markets sector as required by legislation and company policy
- Understand the functioning of the international financial markets within the South African context
- Apply micro and macroeconomic indicators as forecasting and planning tools within the financial markets
- Evaluate how hedge funds can be used to diversify the client's portfolio
- Evaluate companies based on their financial statements

Course Dates for 2011:

10-14 October

Cost: R9 690.00 pp

Includes: VAT, lunch, teas & course notes
